

Be Part of a Socially Assistive Robotics Research Study!

USC IRB Approval for This Study:

UP-23-00539

Who is Eligible?

- Adults 18 to 39 years old with normal or corrected to normal hearing and vision, and fluency in English

Who is Ineligible?

- Those without access to a computer capable of video-conferencing with Microsoft Teams (without a webcam or microphone)

Compensation:

\$50 Amazon gift card

Principal Investigator:

Prof. Soleymani

Study Contact:

sgstudy@usc.edu

Researchers at USC are recruiting volunteer participants for a study exploring robot facilitation of a support group. Participation in the study is voluntary.

What will you be asked to do?

Study participants will interact with our social agent & other participants (max 8 people) virtually over Microsoft Teams for approximately 60 minutes. They will also fill out pre- and post- session surveys and complete an exit interview for 30 minutes. Overall study participation is entirely remote over Teams and takes no more than **120 minutes in total**.
